

MD. Sabbir Rahman

Frontend Developer | React.js | Next.js | MERN Stack

Dhaka, Bangladesh | +8801308962721 | srsabbirrahman12@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

CAREER OBJECTIVE

Frontend Developer specializing in React.js and Next.js with hands-on experience building responsive UIs, reusable components, dashboards, REST API integrations, and MERN stack projects. Strong problem-solving and debugging skills with a focus on writing clean, maintainable code. Seeking a Frontend Developer role to contribute to real-world products, solve technical challenges, and grow as a professional developer.

TECHNICAL SKILL

Languages: HTML5, CSS3, JavaScript (ES6+)

Frontend: React.js, Next.js 15 (App router), Tailwind CSS, DaisyUi, HeroUi, Framer Motion, Recharts

Backend & Databases: Node.js, Express.js, MongoDB, Mongoose, RESET APIs, JWT, Better Auth, Role-Based Authorization

Development: CRUD operation, API Integration, Reusable Components, Responsive UI, Dashboards, Debugging, Problem Solving

AI & Productivity: Claude code, ChatGPT, Gemini, Grok, Google Antigravity, Prompt Engineering, AI-Assisted Development

Tools & Deployment: Git, GitHub, VS Code, Vercel, Netlify, Render

PROJECTS

LegalEase — Legal Service Marketplace

[Live](#) | [client](#) | [server](#)

Tech Stack: Next.js, Node.js, Express.js, MongoDB, Tailwind CSS, Framer Motion, Better Auth, JWT, Stripe

- Built a full-stack legal service marketplace with **role-based dashboards** for clients, lawyers, and administrators, enabling lawyer discovery, hiring requests, profile management, and platform administration.
- Implemented **authentication and authorization** using Better Auth, Google OAuth, JWT verification, and protected routes, with reusable components and maintainable project architecture.
- Integrated **Stripe payments and REST APIs** for consultation payments, hiring workflows, transaction management, and admin analytics, with responsive UI built using Tailwind CSS, HeroUI, and Framer Motion.

SparkNest — Idea Sharing Platform

[Live](#) | [client](#) | [server](#)

Tech Stack: Next.js, Node.js, Express.js, MongoDB, Tailwind CSS, Framer Motion, Better Auth, JWT

- Built a full-stack **idea-sharing platform** that enables users to publish startup concepts, discover trending ideas, and engage through comments and interactions.
- Implemented **secure authentication and authorization** with Better Auth and JWT, including protected routes, user profiles, CRUD operations, and authenticated user workflows.
- Developed **RESTful APIs and MongoDB data models** for idea management, comments, search, filtering, and engagement tracking, with a responsive, theme-aware UI built using Tailwind CSS, HeroUI, and Framer Motion.

Voyentra — Travel Destination Booking Platform

[Live](#) | [Client](#) | [Server](#)

Tech Stack: Next.js, Node.js, Express.js, MongoDB, Tailwind CSS, HeroUI, Framer Motion, Better Auth, JWT

- Built a full-stack **travel destination booking platform** with Next.js, Node.js, Express.js, and MongoDB, enabling users to explore destinations, view details, and manage travel bookings.
- Implemented **secure authentication and booking workflows** using Better Auth, including persistent sessions, protected routes, duplicate booking prevention, personal booking management, and cancellation.
- Developed **RESTful APIs and reusable components** for destination and booking management, with a responsive UI using Tailwind CSS, HeroUI, and Framer Motion, supported by dynamic routing and optimized rendering.

EDUCATION

Bachelor of Science (B.Sc.) in Mathematics

2023 – 2027

National University, Bangladesh

CERTIFICATIONS

• AI-Powered Future-Ready Web Development - Programming Hero

2026

LEADERSHIP & ACTIVITIES

• **Member, Bangladesh Scouts**

2019 – 2021

- Developed leadership, teamwork, communication, and community service skills through scouting activities.
